

COMPANY PROFILE

OBAIKAN EQUIPMENT & SERVICES WLL is a well established and trusted company in Qatar, representing some of the world's leading and reputed brands in construction machinery, material handling and access platform equipment. Our clientele covers a wide range of industries including construction, logistics, warehousing and power generation. We at **OBAIKAN** have established a strong and unshakeable presence in the construction and equipment sector of Qatar by providing our customers effective, efficient and enduring products and solutions. We enjoy a strong goodwill and are recognised by leading multi-national and local contracting companies and are one of the preferred one-window solution company in the entire region.

MISSION

Let's build Qatar together.

OBAIKAN strives to extend reliable, quality service to clients and provide integrated solutions that enable, empower and enhance their business objectives effectively.

VISION

OBAIKAN envisions to be amongst the top three and a highly preferred destination for construction equipment and power supply solutions in Qatar.

VALUES

OBAIKAN resolves to be open, honest, fair and resolutely transparent in all its business operations and services.

We pledge to do it in the right way and do it together.

ALI AL-OBAILDI
CHAIRMAN

OBAIKAN EQUIPMENT & SERVICES WLL is committed towards building a long and strong business association with all stake holders. Their trust and belief makes us stronger and even more dedicated towards maintaining the highest standards of professionalism and to provide the best in technology & service to the people of Qatar.

OBAIKAN is an off-shoot and operates under the umbrella of the leading global partners OITC GROUP. We represent a vast plethora of international brands and companies to provide trusted **3S** facilities - **SALES, SERVICE & SPARES** - across Qatar.

Let's build Qatar together.

**SINOBOOM**

Reaching out to you

Sinoboom is a leading manufacturer and innovator in aerial work platforms, with a wide range of access solutions, including self-propelled telescopic boom lifts, self-propelled articulating boom lifts, self-propelled scissor lifts, self-propelled spider boom lifts and truck-mounted boom lifts, with working heights ranging from 4m to 44m.

TRB[®] BREAKERS

★ Silenced-Box Type

Product Advantage

1. Suitable with a wide range of excavator
2. Leading heat treatment technology.
Heat resistance and abrasion resistance are enhanced
3. Carrier flow must be adjusted according to the breaker flow to get a better performance.
4. Longer use, easy maintenance
5. Strong "Hydraulic+Nitrogen" impact system, steady & durable
6. Korean Equipment & Technology used to guarantee the quality

BeachTech

Beach Cleaning Machines

The self-propelled BeachTech Marina sets standards when it comes to agility, maneuverability and quietness. With a powerful turbo diesel engine, hydrostatic all-wheel drive and low-pressure tyres, nothing gets in the way of the BeachTech Marina. As it can be registered for road travel, you can use it anywhere you like. So much flexibility means higher cost-effectiveness.

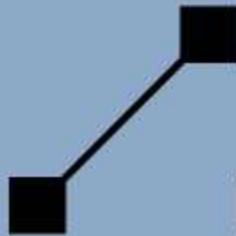

**D'AVINO**

Self-loading concrete mixers

Designed and manufactured in Italy, these less labour-intensive concrete mixers are highly cost effective and minimize wastage

Made in **ITALY**

RUTHMANN
professionals at work

Modern and innovative truck-mounted aerial platform utility vehicle

Ruthmann modern and innovative aerial platform utility vehicles are an ideal choice for all your aerial installation and service jobs. The Steiger, Ecoline and Bluelift brand names are familiar worldwide for their versatility, functionality and utility value.

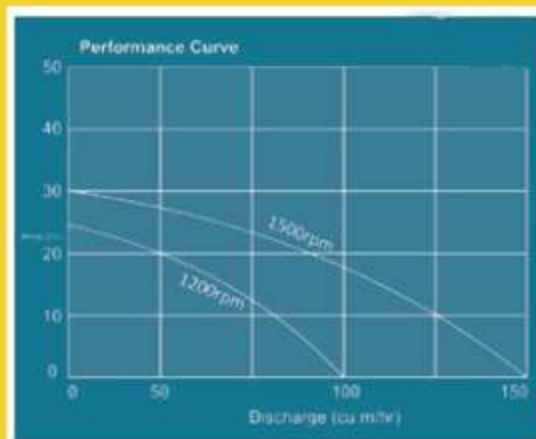

Features

- Auto-priming pump system
- 9m maximum suction lift
- integrated 24 hour fuel tank
- trailer mount or Skid mount
- Dry running-Oil lubricated mechanical seal
- Wear resistant Ceramic coating in volute
- Anti corrosive primer and scratch resistant paint
- Stainless Steel or hardened steel parts available
- standard Deutz German Engine

Applications

- Wellpoint Dewatering
- Construction
- Jetting
- Environmental
- Industrial
- Mining
- Clear Water

CERTIFICATION

- CE 2006/42/EC Approved
- NRMM EU Stage V *
- US EPA Phase III
- CARB-California Air Resources Board

STANDARD FEATURES

- 300-hour service intervals
- emissions compliant cast iron sleeved OHV engine
- 2-pole brushless alternator
- long running steel powder coated fuel tank
- integral fuel level contents gauge

Note:
LPP7.5RE does not comply with EU StageV legislation

- automatic low oil shutdown protection
- durable powder coated compact roll cage frame design
- anti vibration mounts
- recoil and electric start
- 12V start battery and leads
- emergency stop button
- manual fuel cut-off valve
- operators handbook
- electrical diagrams

BASIC CHARACTERISTICS

- 50 Hz 3000 r/min and 60Hz 3600 r/min single phase portable generator
- unleaded petrol conforming to BS EN 228:2012 (95 RON)
- naturally aspirated OHV SI engine

ALTERNATOR SPECIFICATION

- single bearing 2 pole brush alternator
- solid state AVR with +/-1.5% voltage regulation as standard
- class H insulation on the rotor and stator
- IP23 protection class

Stage 
CERTIFIED

LPP petrol genset

50 Hz, 3000r/min | 60 Hz, 3600r/min
